

### **measurement of organization performance pdf**

In education. Performance measurement has been defined by Neely as "the process of quantifying the efficiency and effectiveness of past actions", while Moullin defines it as "the process of evaluating how well organisations are managed and the value they deliver for customers and other stakeholders". Discussion on the relative merits of these definitions appeared in several articles in the ...

Outcome measurement will explore what your program provides, what its intended impacts are, and whether or not it achieves them. It will not prove that the changes that take place are a result of your program. People often get stuck in the outcome measurement process because of all the terminology.
